ADIPEC Brought To You By

Shaping the Future of the Energy Industry

Hosted by the Abu Dhabi National Oil Company (ADNOC), ADIPEC is the world's most influential meeting place where oil, gas and energy companies and professionals will convene in-person, safely and securely, between 15-18 November 2021.

Taking place immediately after COP 26, ADIPEC 2021 will be the first global energy forum to discuss the key decisions of the UN climate meeting. It will provide the thought leadership, direction and strategies that will shape the strategic and policy responses for the oil and gas industry as it pivots to deliver net-zero energy.

The Exhibition

The ADIPEC exhibition provides a world-class environment for buyers and sellers to meet, learn, network, do business and discover new products, solutions and technologies from over 2,000 exhibiting companies, which includes over 51 NOCs, IOCs and IECs as well as 26 international country pavilions.

The Conference

The conference programmes provide both strategic and technical insights as more than 100 leading Ministers, CEO's, policy makers and influencers debate and share their insights on the latest developments that shape the industry across the strategic programme and over 1,000 technical experts from around the world, deliver 126 sessions across 4 days of business critical knowledge-exchange.

The Smart Manufacturing Zone **NEW FOR 2021**

Co-located with ADIPEC, the newly launched Smart Manufacturing event will enable the energy industry to engage with the local, regional and global manufacturing sector and source the advanced technology and industrial solutions necessary to gain comparative advantages and compete successfully both at home and abroad during the energy transition.

“ The platform of ADIPEC has never been more needed, because we are all facing the realities of a world turned inside out by the COVID-19 pandemic and we are all of us, in this together. ”

His Excellency

Dr. Sultan Ahmed Al Jaber

Minister of Industry and Advanced Technology,
United Arab Emirates
and Group CEO, ADNOC

Exhibition

“ ADIPEC 2021 will be a powerful platform for industry stakeholders to showcase their recovery strategies, exchange knowledge on the latest innovations, demonstrate their advanced technology, strengthen and create new partnerships and conduct the business that will fast track recovery and lay the foundations for future success. It will set out the energy roadmap that will ensure future resilience and deliver sustainable value in the years ahead. ”

Tayba Al Hashemi

Appointed Chair of ADIPEC
CEO of ADNOC Sour Gas

ADIPEC Generates the Highest Value for your Business

The ADIPEC Exhibition provides a world-class environment for trade across the industry's full value chain and helps generate the highest value and return on investment for international, regional and local oil, gas and energy businesses and professionals. The exhibition is an exceptional opportunity for businesses to network with existing and new customers and review the services, products and solutions that will enhance performance, increase efficiencies and help optimise costs.

Purchasing Power

A total of \$18.9 Billion* worth of business agreements took place across the four days of ADIPEC 2019, a figure that is expected to grow in 2021. With 80% of attendees either a decision maker, purchaser or influencer, underlining the fact that the event delivers real business opportunities.

Knowledge Exchange

With more than 1,000 ministers, CEOs, global oil, gas and energy business leaders and technical experts speaking from around the world and over 160 conference sessions, ADIPEC is the convening power for the oil, gas and energy industry to shape their business models and strategies required to unlock, create and maximise value.

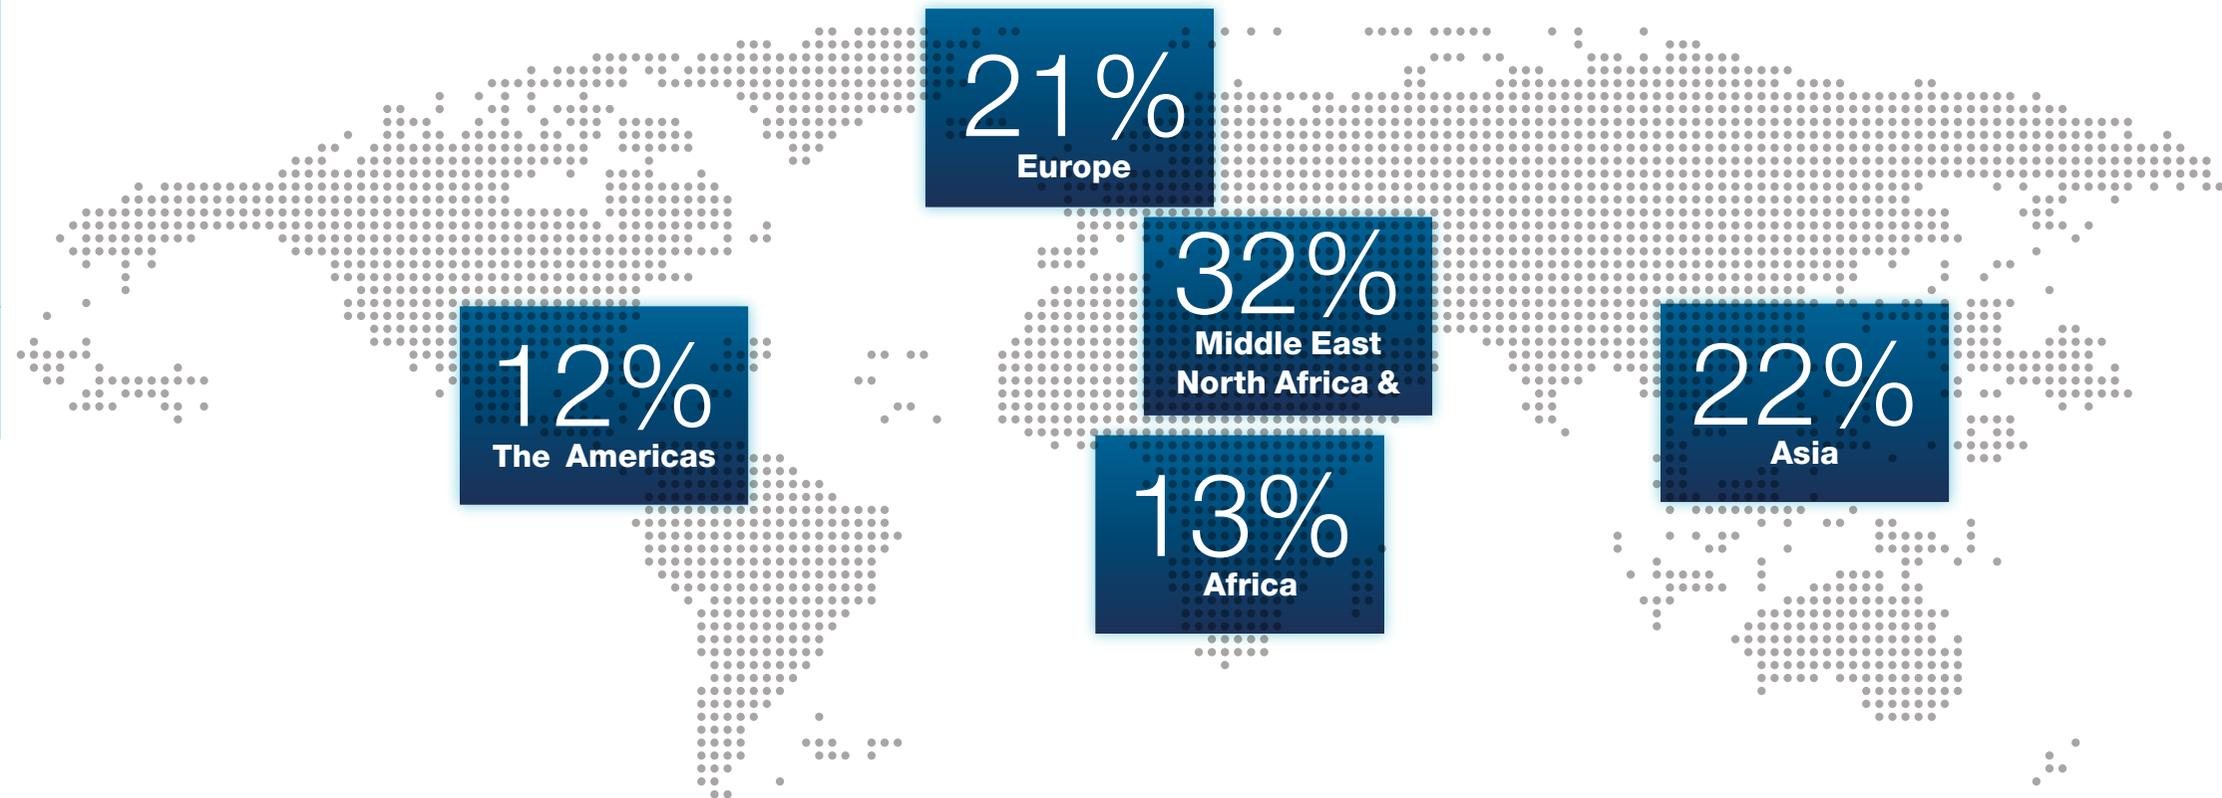

International Perspective

51 Exhibiting national and international oil, gas and energy companies and 26 exhibiting country pavilions along with over 2,000 exhibiting companies will meet across four days of unparalleled business networking to discuss and develop new opportunities.

*Figures are compiled from an independent survey carried out by a third party.

Attendees Breakdown by Region

A Global Business Platform Attracting 100,000 Energy Professionals from Across the World

A Unique Platform for Interaction Between Leading NOCs, IOCs and IECs

The ADIPEC exhibition attracts leading energy companies from around the world that bring industry leading technologies and solutions.

26 Exhibiting Country Pavilions Including:

Being at the very heart of the international energy sector, ADIPEC delivers real buying power from across the world to Abu Dhabi. The energy capital and ADIPEC provide the ultimate business platform where country pavilions convene to boost bi-lateral trade, discuss commerce and innovation.

Offshore & Marine Exhibition

Co-located alongside ADIPEC, the Offshore & Marine exhibition and conference is one of the world's foremost meeting places for the offshore and marine sector to understand the latest developments in technology, meet new buyers and develop new business opportunities with NOCs, IOCs, service companies, EPC contractors, subsea engineering and supply chain companies.

The Offshore and Marine Conference will discuss the latest developments impacting the industry from collaboration and integration to how the sector needs to adapt to new IMO regulations and market conditions.

Confirmed Offshore & Marine Exhibitors Include:

Offshore & Marine Exhibition and Conference In Numbers

20,000+ Offshore & Marine Trade Visitors	20,000+ Gross SQM	250+ Exhibiting Companies
350+ Conference Delegates	30+ Conference Sessions	120+ Offshore & Marine Speakers

Why Exhibit?

Drive offshore & marine investments and partnerships with an international and targeted offshore and marine audience.

Gain industry knowledge and share best practices with the global offshore & marine community and professionals at the Offshore & Marine Conference.

Communicate and engage with current and potential customers and showcase your company's specialist services.

Join key companies access specialist departments from exploration, production, engineering and construction companies: Meet with over 51 national and international oil, gas and energy companies, services companies and EPCs.

Help shape the future of the shipping and maritime industry through promoting your company's latest developments and technologies to assist in reducing carbon emissions and creating a more sustainable future for the industry.

“ ADIPEC is the most substantial event of its kind in the MENA region with a huge volume of delegates attending. Having a specific Offshore & Marine section helps the delegates to be more precise and view the pertinent companies with the latest technologies ”

Managing Director
Horizon Geosciences

Digitalisation In Energy Zone

The dedicated Digitalisation Zone at ADIPEC 2021 will be a global showcase of the technological solutions that can help the energy unlock untapped value and opportunities as digitalisation becomes more deeply integrated into all aspects of operations. The zone will connect the technology, innovation and partnerships shaping the future of the global energy industry post COVID-19 and showcase the digital solutions necessary to maximise value from every molecule produced.

Exhibitors of the Digitalisation Zone will have the opportunity to meet and do business with key industry stakeholders looking to save costs, develop human capital, create value through increased productivity, improve health, safety and environment measures and applications, reduce emissions and use data to drive business transformation.

From Artificial Intelligence to Blockchain Technology, Big Data to Machine Learning, Equipment Sensors to Cloud & Edge Computing, Cyber Security to Robotics, Drones and Internet of Things (IoT), the zone will bring together disruptive SMEs and leading technology companies under one roof and will enable the energy industry to anticipate, understand and remain ahead of emerging technological trends.

Confirmed Digitalisation In Energy Exhibitors Include:

Digitalisation In Energy Exhibition and Conference in Numbers

4,000+

Digitalisation focused attendees

1,500+

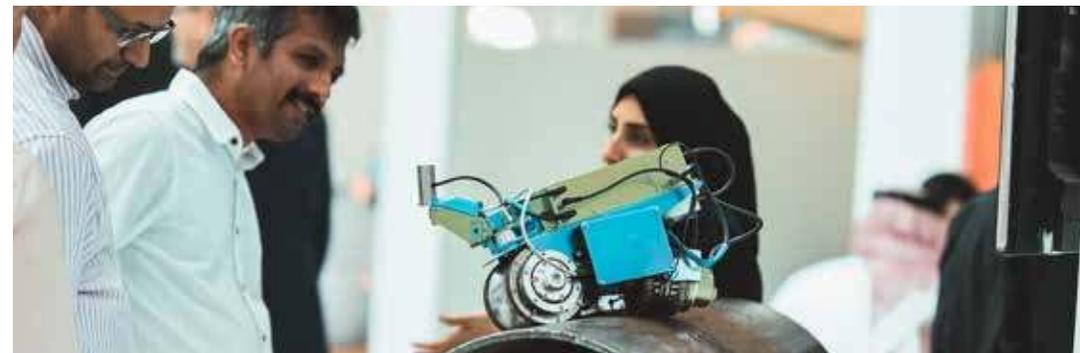

Gross sqm space

100+

Exhibiting companies

110+

Theatre presentations

Why should SME's and Technology Companies Exhibit?

1

Digitalisation is key to the future growth and increased efficiency of the energy sector and will be at the forefront of ADIPEC 2021.

2

New technologies will be showcased, while discussions and debates will focus on the implications of digitalisation for the industry and the best ways emerging technologies can be utilised.

3

Industry experts and businesses can experience the entire spectrum of digitalisation, from Big Data, to Cloud to Machine Learning in order to gain the best insights into their potential and evaluate what works best for them to optimise efficiency and productivity.

4

The entire energy industry is moving towards taking full advantage of what new technologies have to offer and the latest innovations will all be on show for the benefit of all across the oil, gas and energy sector.

“ Presenting TDE Group in the Digitalisation Zone of ADIPEC was beyond expectation as we could capitalise on the ongoing trend for digital transformation and improving drilling efficiency. As a result, we are looking forward to ADIPEC 2021 where we will return to the Digitalisation Zone with a larger stand in a prime location

Prof. Gerhard Thonhauser

Chairman and CTO
TDE Group

NEW

Smart Manufacturing Zone

Transforming The Future of Global Manufacturing

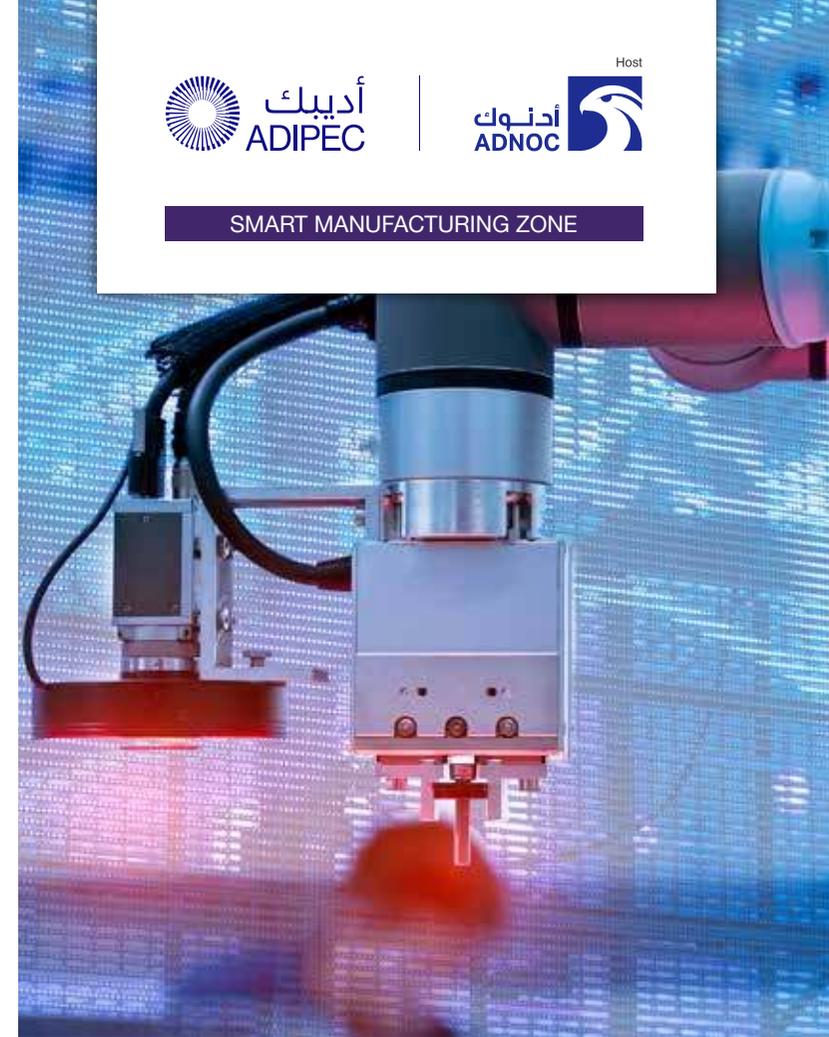

Co-located alongside ADIPEC, the newly launched Smart Manufacturing Zone will provide a unique platform for the manufacturing industry to gain insights into the energy transition and identify the challenges and opportunities for manufacturing in the drive to net zero carbon energy.

Bridging the gap between energy, manufacturing and high tech sectors to accelerate economic development and diversification, the Smart Manufacturing zone will help reshape the energy industry by providing access to today's rapidly evolving manufacturing technologies that will enable companies to optimise their operations, enhance performance and relieve pressure on margins.

As Industry 4.0 transforms global business, the Smart Manufacturing Zone will enable manufacturers, in partnership with the energy industry, to unlock greater value and boost productivity as rapidly evolving technologies, including artificial intelligence, the internet of things and advanced robotics transform value chain.

SMART MANUFACTURING ZONE

To find out more about the Digitalisation In Energy Zone, visit adipec.com/digitalisation-zone

Why exhibit at the Smart Manufacturing Zone?

1

Leverage the event as a **platform to demonstrate your vision** of a smart manufacturing landscape.

2

Highlight your products and services to an audience looking to digitally transform their operations.

3

Explore new market strategies to gain a competitive edge in the transforming manufacturing industry value chain.

4

Forge relationships with stakeholders and decision-makers looking to

5

Make the right connections with those who matter in the manufacturing industry.

Event Core Sectors:

- Materials Management 4.0
- Industrial Internet Of Things (IIoT)
- Supply Chain And Logistics
- Computer Aided Manufacturing
- Instrumentation And Control
- Industrial Automation, Robotics and Lasers
- Sustainable Materials
- Nanotechnology
- Additive Manufacturing
- Material Informatics
- Responsive And Smart Materials
- Advanced Composites
- Surface Engineering

Exhibit your Products, Services and Solutions to Key Decision Makers

Generate new sales leads

67%

Increase their brand's reach/presence

Attendee Breakdown by Yearly Purchase Budget*

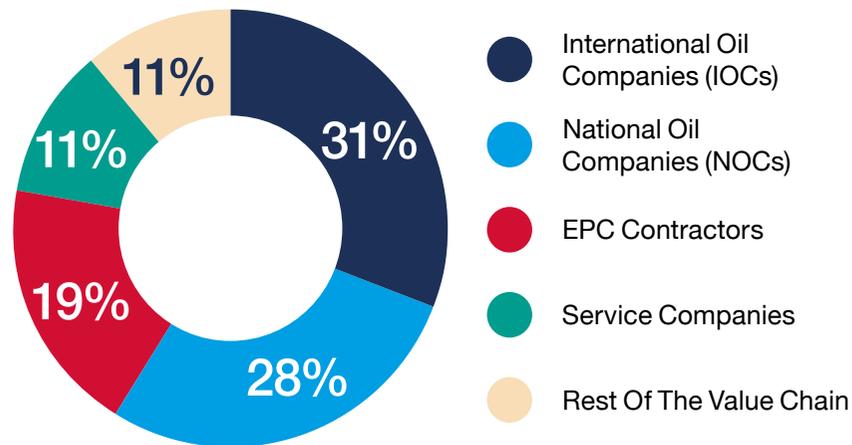

“ In the future, if we want to continue to grow we have to put our money and our capital, mainly in growing markets. We see two growing markets, one is electricity and in particular renewables, and the other one is natural gas, in particular LNG. ”

Patrick Pouyanné
Chairman and CEO
TotalEnergies

The World's Most Influential Meeting Point for Energy Professionals

Attendees Breakdown by Company Type*

“ Many pure play companies are diversifying because of what their customers need. bp are a one stop shop, we can provide clean affordable and reliable energy. As renewables penetrate more and more into the energy mix, the challenges and complexities becomes bigger. As bp we are committed to creating value for all and we are going to prove it as well. ”

Bernard Looney
CEO
bp

Why Do Visitors Attend ADIPEC?*

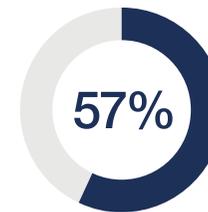

Keep up to date with market trends

See new products/innovation

Identify new opportunities/markets

Source new suppliers

Seek potential business partners

*Results are compiled from an independent survey carried out by a third party.

Conferences

“ Global trade has held up well, we have severe restrictions on mobility of people but not on mobility of goods. As a result global trade volume is almost back to pre-pandemic levels, just some 8 months into the crisis. Whereas it took almost 3 years to have that kind of recovery after the 2008/9 financial crisis. ”

Paul Krugman

2008 Nobel Memorial Prize in Economic Sciences, Distinguished Professor in Economics, CUNY Graduate Center, Op-Ed Columnist for The New York Times, Author

Strategic Conference

Unlocking The New Value Opportunities In The Energy System

The ADIPEC 2021 Strategic Program will enable attendees to gain unique insights into how the energy industry can align itself with the outcomes of COP 26 and post pandemic market dynamics, in order to thrive in the face of the growing global ambition for sustainable, integrated, low carbon energy value chains.

Post COP 26, ADIPEC 2021 will gather leaders from industry, government, finance and technology to share perspectives on how the low carbon energy landscape will evolve, and discuss crucial industry topics, such as energy demand dynamics; the impact of innovative climate navigation technologies, such as CCUS and hydrogen; shifts in government policy and the specific energy solutions required to succeed in the evolving global energy ecosystem.

In the immediate aftermath of COP 26, ADIPEC 2021 will showcase how the industry is responding to the uncertainty created by the pandemic, bringing clarity to a not-so-distant future and unlocking new value opportunities, in an era of accelerating climate-driven priorities.

Strategic Conference Themes by Day:

The ADIPEC 2021 Strategic Conference will focus on the crucial changes that the industry is going through, zeroing in on 4 major themes, each of which provides critical insights into the new trends and challenges that leaders need to address to take advantage of change and ensure success through energy transitions:

DAY 1 MONDAY 15 NOVEMBER 2021

● **New market dynamics in a changing energy world.**

DAY 2 TUESDAY 16 NOVEMBER 2021

● **Fueling the future: the new energy agenda.**

DAY 3 WEDNESDAY 17 NOVEMBER 2021

● **Building the energy company of the future:
new business models and investment flows.**

DAY 4 THURSDAY 18 NOVEMBER 2021

● **Transformational technologies:
unlocking the engines of change.**

Past ADIPEC Strategic Conference Speakers Included:

**His Excellency
Dr Sultan Ahmed Al Jaber**
UAE Minister of Industry
and Advanced Technology
and ADNOC Group CEO

**His Excellency
Suhail Mohamed Al Mazrouei**
Minister of Energy and
Infrastructure
United Arab Emirates

**Her Excellency
Sarah bint Yousif Al Amiri**
Minister of State
for Advanced Technology
United Arab Emirates
UAE Space Agency Chairwoman

**His Excellency
Ahmed Ali Al Sayegh**

Technical Conference

The ADIPEC Technical Conference is the single largest technical meeting place for oil, gas and energy engineers worldwide, providing unprecedented access to the latest industry knowledge, technical expertise, applications, products, solutions and services.

Curated by the Society of Petroleum Engineers, the technical conference sessions, cover a wide and diverse range of technical and engineering insights that will drive ideas, overcome challenges, create new value and highlight innovation.

With 126 technical conference sessions, across 16 technical categories, the Technical Conference program is the right platform to source the knowledge, technology, innovation and partnerships required to ensure future operational and technical resilience.

126 Sessions Across 16 Technical Categories

Sustainable Development and Environmental Stewardship in The Oil and Gas Industry

Artificial Intelligence, Robotics, and Hybrid Intelligent Systems

Enhanced Oil Recovery

People Development and Diversity

Production Facilities

Health and Safety

Project Management

Oil Field Development and Management

Drilling Operations

Offshore and Marine

Unconventional Resources Development

Geosciences

Well Completions

Oil And Gas 4.0: A Journey to Digital Transformation

Operational Excellence

Gas Field Development and Management

Downstream Technical Conference

The ADIPEC Downstream Technical Conference will offer the opportunity for industry leaders, experts, and decision makers to uncover the most pertinent market updates, forge new partnerships and promote cutting-edge technologies that will support downstream business growth in the era of lower carbon energy.

With the industry's transition to lower-carbon operations and the implementation of new sustainable and circular economy strategies, the conference will offer the downstream sector access to unique insights into how companies can transform their downstream businesses to take on the challenges of supply, demand and decarbonisation.

With 10 dedicated technical categories critical to the decarbonisation of operations, the conference will help define a resilient downstream road map to a successful lower carbon future.

10 Downstream Technical Categories

NEW

Global Trends in the Downstream Industry

Refining Technology, Operations and Marketing

Petrochemicals Technology and Operations

Gas Processing, Hydrogen Technology and Operations

Project Management, Engineering Technology and Implementation

Operational Excellence, Maintenance and HSE

Digitalisation and Ccus Technologies in Petrochemical Plants and Refineries

Environment Protection, Energy Efficiency and Circular Economy

Co2 Capture and Utilisation and Transportation from New Energy Sources

Developing The Next Generation and Promoting Gender Equality in a Sustainable Downstream Industry

Offshore & Marine Conference

OFFSHORE & MARINE CONFERENCE

Paving the Way to a Decarbonised and Digitalised Maritime Sector

The last two years caused turmoil in the industries globally, and the maritime sector was not an exception. Disrupted supply chains and plummeted cargo volumes caused challenges to the offshore and marine industry, however, they also helped establish a solid ground for the required transformation.

How can different parts of the supply chain work together to improve efficiency, achieve much-needed resilience, emerge stronger and rebuild their business operations? What is the role of digital solutions in helping the industry to accelerate the response to the pandemic, whilst developing their energy transition strategies? What steps do companies need to take to make sure decarbonisation still remains at the forefront for the offshore and marine sector?

ADIPEC 2021 Offshore and Marine Conference will gather industry leaders, influencers and decision-makers from the entire maritime supply chain to meet in-person and address the most pressing industry challenges such as digitalisation strategies, decarbonisation pathways as well as strategic partnerships that will uncover synergies enabling improved efficiency and profitability of the offshore and marine sector.

“ The Offshore & Marine trade plays a vital part in the global oil and gas industry and this is well represented at ADIPEC ”

Abdulkareem Al Masabi
Chief Executive Officer
ADNOC Logistics & Services

Inclusion & Diversity in Energy Conference

INCLUSION & DIVERSITY

Securing The Future Energy Workforce

According to industry studies, the future of jobs is changing; during the pandemic remote work was introduced along with new automation and AI driven jobs, and a developed social awareness of inclusion, diversity and environmental issues that impact job seekers' choices.

The ADIPEC 2021 Inclusion and Diversity in Energy Conference will address these topics and focus on the major equity and equality paradigm shifts that promote equal opportunities, reinforce corporate accountability and close the gender gap in the energy transition.

Global leaders and advocates of diversity, equity and inclusion will converge to discuss the challenges and opportunities in maneuvering this cyclical industry with the aim of establishing strategies and equitable solutions that attract and retain talent, creating a resilient and sustainable energy industry.

“ It is only natural that the oil and gas industry should harness the magnitude of talent that is flowing into the country and the industry. ADIPEC’s Inclusion and Diversity in Energy Conference is of paramount importance to bring everyone together and direct change ”

Omar Al Qurashi

Director of Corporate Communications and General Services
Supreme Council of Energy
Inclusion and Diversity in Energy Advisory Board Member (2018)

The ADIPEC Awards 2021

With the UAE celebrating its Golden Jubilee in 2021 and embarking on the journey to the next 50 years, The ADIPEC Awards continues to distinguish and celebrate the projects, people and ideas that are pushing boundaries, elevating how we do business and shaping the energy system of the future.

Now in our 11th year, The ADIPEC Awards has 10 categories for nomination, which have evolved to embrace and recognize feats in Digitalisation, Sustainability, Research, Innovation, Partnerships, Young Talent and more.

Our esteemed 2021 Jury Panel will explore and commend the companies and individuals capturing emerging opportunities, driving transformative change, making a lasting impact and embracing the future

We invite you to nominate people, companies or projects that have demonstrated outstanding commitment to advancing the oil, gas and energy landscape. The ideas, initiatives and disruptors driving the industry forward.

“ We need to look ahead to the next decade, be visionary and embrace the new normal. We must address the new challenges and make strategic choices. The ADIPEC Awards are designed to bring resolutions to the fore, that will put the industry on a trajectory toward the future.

The ADIPEC Awards shines a light on the oil, gas and energy industry’s leading innovators, the projects, companies, and individuals exploring possibilities that can reshape our world ”

Leadership Roundtables

The Middle East Energy Club's Leadership Suite will host a series of exclusive, closed door strategic roundtables. By invitation only and exclusively attended by Ministers, CEOs, C-level executives and policymakers, the roundtables will address the challenges and opportunities facing the industry, especially on how leaders are positioning and taking actions to address the climate challenge and pivot to the new, driving growth over the next decade.

The ADIPEC 2021 Leadership Roundtables will address:

1. The new geopolitics of energy and the evolving dynamics of supply and demand. What will unfold in 2022 and how will the industry transform?
2. The industry is pivoting to new business models and technologies to be able to respond to the net-zero challenge. What are viable paths ahead?
3. How to secure investment for the new and meet investors' ESG requirements? How to create stakeholder value in the new energy landscape?
4. The future of supply chains, mobility markets, electrification and the next generation of transport fuels. Leading on all fronts, which levers will be effective and essential for energy companies to master through transformational change?
5. Developing and employing breakthrough technologies to reduce carbon and methane emissions; new partnerships, business models and what investments are required to develop the right technologies and its effective implementation?

To Register your Interest for the Leadership Roundtables

Please contact ✉ adipecroundtables@dmgevents.com ☎ +971 (0)2 444 4909

Roundtable 1

Charting the climate action path from COP26 to COP27

Understanding this fundamental pivot and acting towards climate change is one of the biggest responsibilities for leaders worldwide. This Ministerial Roundtable invites attendees to share their messages, strategies, cross industry initiatives and pledges to continue their sustainability agenda and plan the road ahead for COP27.

Roundtable 2

Collaborating to define the global energy future

The oil and gas industry understands the important role it plays in meeting the world's net-zero goals and is committed to transform, reinvent and take the necessary actions towards sustainable development. A must-attend session for attendees looking to understand how OPEC and non-OPEC members are creating a balanced energy industry whilst supporting the UNFCCC's principles and common goals.

Roundtable 3

Decarbonising the oil and gas industry

Attendees will be able to explore the many strategies and solutions available to fast track their decarbonisation strategies, what bottlenecks need to be overcome and the urgent need to operate efficiently, sustainably, delivering value across portfolios and future investments.

Roundtable 4

Investing in ESG vs Socially Responsible Investing: how to manage risks and unlock opportunities for long-term growth?

For attendees looking to understand how to drive their ESG and SRI investment agendas and leverage new opportunities. In this session we will address how to manage the risks, rewards and stakeholder requirements to continue investing responsibly towards a successful energy transition.

Roundtable 5

Revolutionising the new mobility ecosystem: how will the future of transportation change energy demand?

A key roundtable session for attendees looking to understand the changing dynamics of the transportation sector and what the future of energy will be; including the hydrogen revolution, the growing role of EVs and what the role of fossil fuels in mobility will be.

Roundtable 6

Transforming organisations through purpose, culture and talent

For attendees looking to understand what are the roles of the future, how work dynamics have changed and what are the best approaches to attract, retain and create inclusive, diverse, talented teams that support companies' growth and help build the organisation of the future.

Roundtable 7

Digitalising energy: driving the transition to net-zero

Attendees will gather insights about how digitalisation, innovation and cross-sector partnerships are fundamental in supporting organisations as they develop, invest and deploy technology to meet the world's climate ambitious; best strategies that lead to innovation and how to accomplish a truly digital and greener value chain.

Roundtable 8

Decarbonising the shipping industry: repositioning for the future

A must-attend roundtable for attendees looking to understand strategies, approaches and best technologies to decarbonise the shipping industry and how the industry is meeting the IMO's requirements.

The Middle East Energy Club

Connecting the Energy Industry Elite

The Middle East Energy Club is a unique business-focused VIP club connecting the energy industry's leaders, innovators and influencers.

Welcoming the business elite since 2012, The Middle East Energy Club offers our members first-class hospitality, set within the unparalleled event programme of ADIPEC, the world's most influential meeting point for energy professionals.

The Middle East Energy Club is an inner sanctum of five-star lounges and meeting suites where our members can spend their time networking with fellow industry leaders, government officials and policymakers outside the formal structure of the conference programme. We take pride in curating an atmosphere of relaxed sophistication and luxury for members to convene, collaborate and influence the future of the energy landscape.

The Middle East Energy Club is specifically intended for the industry's most senior executives and influential individuals. An enclave of exclusivity and privacy, the Middle East Energy Club membership is invitation-only.

COMMUNICATION

With over 3,500 member, including dignitaries, ministers, CEOs, global leaders and executive management from around the world, The Middle East Energy Club offers the ultimate platform to connect with like-minded peers.

INFLUENCE

A stimulating environment where members can engage in business-critical conversations that can lead to future growth and influence industry trends in an evolving energy landscape.

CONNECTION

With so many distinguished members gathered under one roof across four days of high-volume business discussions, The Middle East Energy Club provides the ideal environment for building successful business partnerships.

Young ADIPEC

Held under the patronage of His Excellency Sheikh Nahyan Mubarak Al Nahyan, Minister of Tolerance and Coexistence, Young ADIPEC 2021 will host the 9th edition of the programme, fully supported by Abu Dhabi Department of Education and Knowledge (ADEK). Since its creation back in 2013, the Young ADIPEC programme has received praise and recognition from across the oil, gas and energy industry.

Aimed at High School students aged between 14 and 17 years old, Young ADIPEC is designed to win the hearts and minds of today's youth and highlight the wealth and diversity of career opportunities in the sector.

The programme connects high school students with the oil, gas and energy industry to foster a new generation of talent and leadership capable of harnessing the benefits of a newly digitalised value chain and navigating the macro and micro uncertainties created by market volatility, an aggressive environmental agenda and geopolitical shifts.

Over 2,500 students from across the UAE have passed through the programme since its inception in 2013 and the aim is to continue to grow this number in 2021 as we prepare to engage and encourage students to explore what the industry has to offer.

YOUNG ADIPEC

Golf Day

Taking place on Sunday 14 November 2021, the ADIPEC Golf day offers an exclusive opportunity to engage with 100+ key industry players and build important relationships in a relaxed social atmosphere prior to the official opening day of ADIPEC. The golf day is held at Abu Dhabi Golf Club which offers one of the most luxurious golf resort experiences within the Middle East, in full management with the worldwide renowned Troon Golf.

Abu Dhabi Golf Club is home to 27 holes of Championship golf. The National, Abu Dhabi's 18 hole Championship course, provides a tough but fair challenge and is home to one of the European Tour's most popular events, the Abu Dhabi HSBC Championship presented by EGA, A Rolex Series Event.

With lush fairways, strategically placed bunkers and immaculate greens, the course has been described as a "super course" by leading representatives of the golfing press.

The Golf day begins with a warm-up before teams of four play the 18-hole championship course and culminates with dinner and prize-giving.

GOLF DAY

dmg events AllSecure

Putting Your Safety First

At dmg events, our commitment to delivering exceptional live in-person events that support economic growth and recovery, will be reinforced by a four-point framework designed to protect our colleagues, exhibitors, visitors, delegates and contractors.

The measures we will put in place will ensure the health and wellbeing of our participants and provide reassurances to all who visit our events, that they are in a safe environment.

In collaboration with leading industry associations (AEO - Association of Event Organizers, UFI – The Global Association of the Event Industry and AAXO - The Association of African Exhibition Organisers), the dmg events All Secure framework provides a detailed set of enhanced health and safety measures that are practical, effective and widely considered to be best practice for the events industry.

These guidelines will work in conjunction with advice from Public Health Authorities and venues to ensure our events are operating in accordance with local rules as well as meeting international standards.

We are eagerly anticipating welcoming you back, as we continue to keep businesses informed and connected, creating vibrant marketplaces and accelerate their business through face-to-face events.

Cornerstones

The All Secure Standards comprise four key cornerstones, providing assurance and confidence that all our events have health and safety as our number one priority.

Physical Distancing

Cleaning & Hygiene

Protect & Detect

Communication

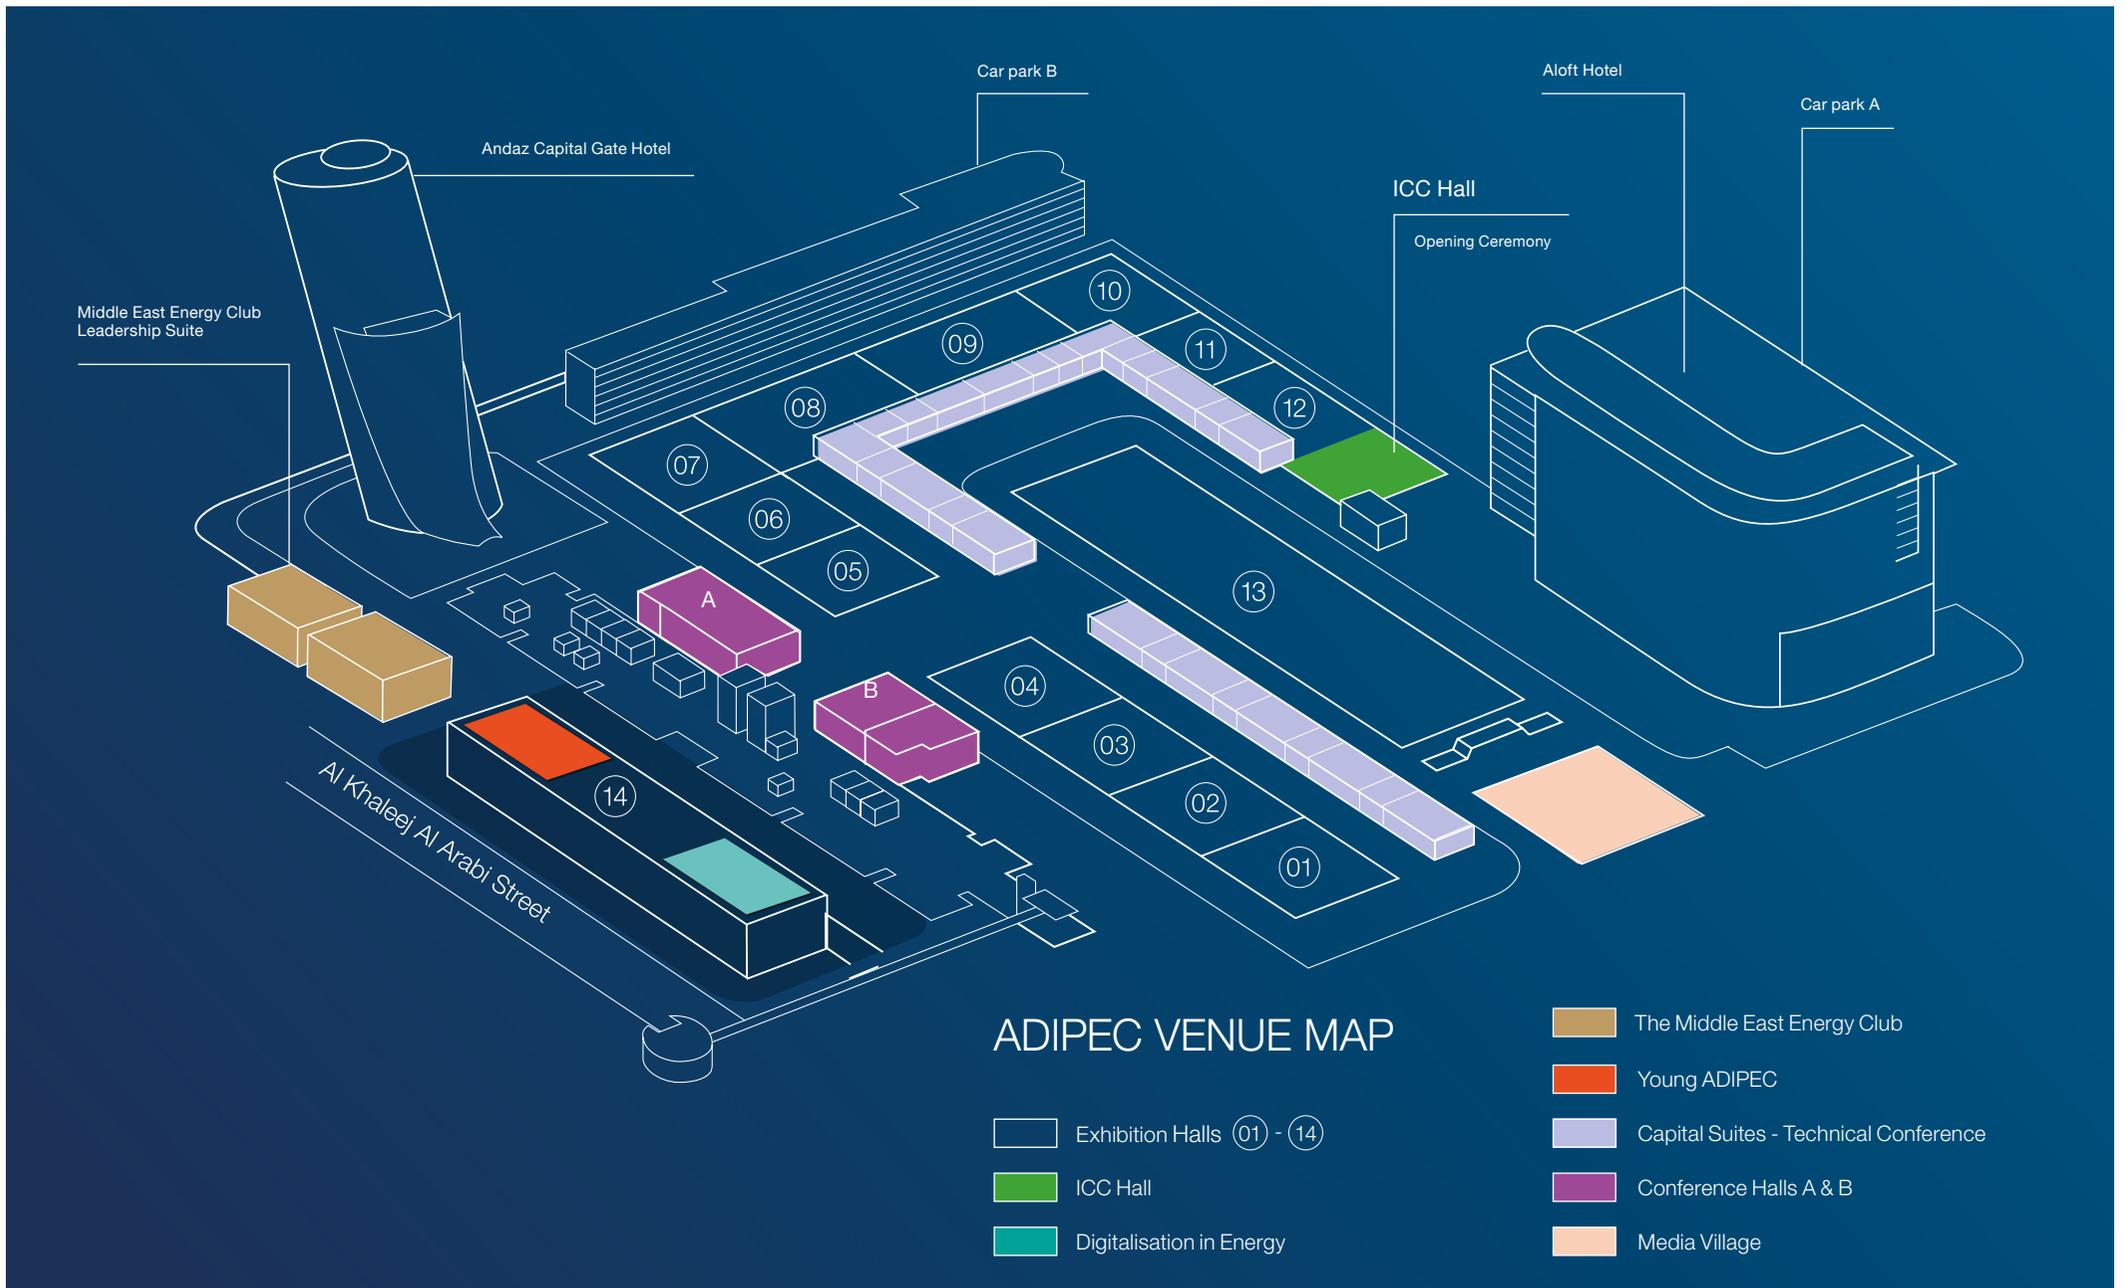

Built on the foundation of entrepreneurship and innovation, dmg events continues to bring together leading companies and talented people to provide business professionals with high quality trade shows, conferences, information and connections.

As we advance into the next phases of reopening and restrictions are lifted, the return of in-person experiences is on the horizon.

It is paramount that the proper steps are taken and the correct policies and procedures are put in place to ensure the safest environment possible is created.
